

## Report on 'Workshop on making of Eco friendly Ganpati Idol'

Ganesh Utsav is one of the most popular festival in India. But while making of Ganpati Idol, it is found that mostly chemicals and paints which used are harmful and responsible for polluting the environment. It is also observed that after the festival, when the Ganesha idols are immersed at the various beaches lakes, and creeks across Mumbai and Thane city it dilutes the water quality and the flora and fauna. Considering these big issues, the DLLE initiated to conduct a workshop on 'Making of Eco-friendly Ganpati Idol' in association with the Entrepreneurship Development cell on 23<sup>rd</sup> August 2023. Ms. Divya Patil, a student of SYBCOM was the resource person who demonstrated how to make Ganpati Idol from moulding clay. She also painted the Idol by using natural colors. Total 96 students participated in the workshop along with 2 teachers.

**Objective:** To protect the environment by organizing a workshop to create awareness among the students about the consequences of using plaster of Paris and synthetic paints.

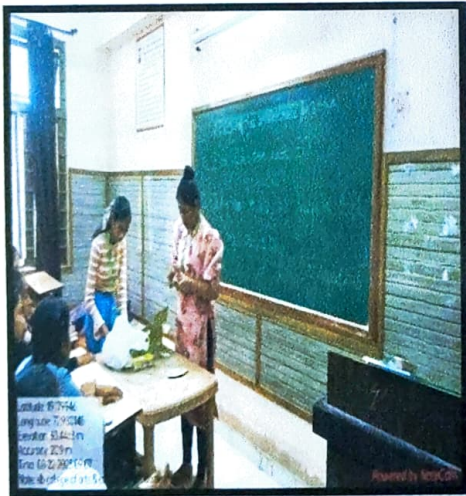

**Outcome:** The student pledged to use eco-friendly materials to make Ganpati idols and also purchased only those which made by using eco-friendly materials.
